Product Description

China cheap Laboratory Mie scattering Theory LPSA Liquid dispersion Laser Distribution Particle Size Analyzer

Overview:

Winner2000E laser diffraction particle size analyzer is an entry level and high efficient-cost with stable good performance model,
working with principle of MIE Scattering to precisely determine the particle size distribution from 0.1μm to 300 μm. It's classical model, widely used in universities research and company lab research.

1,Main Specification:

Model Name		Winner2000E
Standard		ISO13320-1:1999, GB/T19077.1-2008, Q/JWN001-2009
Principle		MIE scattering principle
Measuring Range		0.1μm-300μm
Channels Number		39 PCS
Accuracy error		<1% (National Standard Sample D50)
Repeatability error		<1% (National Standard Sample D50)
Light source		High performance He-Ne Laser (λ= 632.8nm, P>2MW) Lifetime>25000hour
Dispersion Method	Ultrasonic	Frequency:40KHz Power:50W, Time: ≥1S
	Stir	Revolutions Speed: 0-300RPM (Adjustable)
	Circulate	Rated Flow:8L/min Rated Power:10W

	Sample Pool	Volume:350mL
	Micro-Sample Pool	Volume: 10mL (Available)
Operation Mode		Digital display control
Output parameter		D10,D50,D90,D100,S/V referent parameters
Optical Calibration System		Manual
Test Speed		<2mins per time
Outer dimension		L66*W32*H40cm
Net Weight		32Kg

2,Main Features:

1)High efficient-cost model, semi automatic button control.

2) Wet Sample Preparation and Dispersion system
Full built in dispersion system, including manual water supply, Key operation control circulation, ultrasonic dispersion,draining water and cleaning pipe, make sure that sample can be dispersed sufficiently, prevent large particle sediment in the pipe, offer stable and reliable test results.

3)Stable and unique light path system
Winner Patented Technology, Unique
designed converging light Fourier transform light path, efficiently improve resolution ratio of sub-micron particles.

4)High sensitive Detectors:
Main& auxiliary detectors are fan-shaped, It can receive all scattered light signals from sub-micron to millimeter accurately, guarantee the effective capture of the scattered signal,ensure the good accuracy and repeatability.

1. Self-developed software System:
   Unconstrained free free Analysis
   software patent technology, make particle analysis not restricted by any function, truly reflect particle size
   distribution, ensure the good accuracy. Friendly human interface, easy and simple to learn.

3, Software Function:

1, Analysis Mode
Free Distribution, R-R Distribution, Logarithm Normal Distribution, Mesh number classification etc. meet different demands of particle size statistic in different industries.

2,Statistic Method
Volume Distribution, Quantity Distribution

3,Statistic Comparison
Statistic Several Testing Results to compare and analyze
Get difference by compare test result of different batches of samples, samples before and after processing, and different time.
Have great practical significance to industrial raw materials quality control

4,User-defined Analysis
Figure out percentage according to the particle size
Figure out particle size according to the percentage
Figure out percentage according to the particle size range
Meet demands of representation of particle test in different industries.

5,Test Report
Word, Excel,Photo(Bmp), Text etc.

6,Multiple language Support
Chinese&English (Others are available)

7,Intelligent Operation Mode
Automatically control water inflow, dispersion,test and analysis.
Better Repeatability after remove human-factor

4. Laser Particle Size Analyzer Application Field:

1.Non-metallic powders such as calcium carbonate, talcum powder, kaolin, zirconium silicate, wollastonite, graphite, silica powder, tourmaline, mica, barite, plaster, bentonite, diamond, quartz, diatomite, feldspar, calamite,clay, garnet, vermiculite, Titanium white power, etc.

2. Metallic powder such as aluminum powder, iron powder, magnesium powder, molybdenum powder, copper powder, zinc powder, other rare metal power and varied alloy powder, etc.

3. Pharmaceutical, agricultural pesticide, grinding particle, foodstuff, scientific research, teaching, cement, ceramic, glass, chemical industry, military industry, soil, toner,pigment, oil exploration, geological analysis, river silt and electronic particle, etc.

5. Winner2000E Laser Particle Size Analyzer Patents Technology:

1. Optical bench design is protected by patent No.- ZL 2014 2 0378380.8,
2. MIE scattering principle application patent is protected by patent No.- ZL 2013 2 0812021.4.
3. Wet circulation installation is protected by patent No.-ZL2010 2 0593526.2.

Company information

All of our Particle size analyzer is approved by CE and ISO Certification. Winner also get the certification of National High-Tech Enterprise, "Winner" Brand Registation ,Software copyright, and machine design patent, etc.

Our factory is based in Jinan, China, We are the manufacturer for 30 years, and has been the leading enterprise in China all the
time. All material is of high quality under inspection and control,and all the particle size analyzer go through 2 times of test before shipment.
High quality assurance is our task and also what we are doing now.

Our Services

Quality Assurance For Laser Particle Size Analyzer

1. Strictly conforming to ISO9001-2000 quality management system,
2. Strict control from purchasing materials, process inspection to final particle size distribution test,
3. QC department to execute quality control regulations,
4.Only qualified components will be assembled and total laser particle size analyzer
must be inspected completely before sale.
5, Laser particle size analyzer will be processed preventing -shake test before delivery.

After sale service

1. We will send our technician to install the laser particle size analyzer if customer need.(operation demo video CD will be offered also.)
2. Offer free-training service.
3. The quality assurance date is 1 year since finishing payment, Technology support in all a life.
And after that, we will collect the cost if provide repair accessories.
4. Maintenance for equipment failure caused by improper handling (appropriate cost will be collected).
5. We offer the components with favorable price and perdurable maintenance.
